

Arora ATLAS® is an enterprise level suite of mobile products designed to simplify and enhance asset management through the seamless convergence of asset data and real-time location services.

## ARORA ATLAS® Request

Arora ATLAS® Request is an on-the-go, web-based tool that simplifies the work request process by integrating Maximo asset data and real-time location services to reduce labor spend and improve customer experience.

- + Allows employees and customers to easily submit work requests in three clicks
- + Mapping functions for Geo referenced work requests
- + Enabled via a QR code from your phone, any smart device, or a desktop link
- + Create work requests by preconfigured categories such as physical location, function, or department
- + Configurable wizard style questions and answers guide the user
- + Integrates seamlessly with IBM's Maximo® Enterprise Asset Management (EAM) Software
- + Attach photos to requests

Rethinking Infrastructure®
