Indoor GIS
Specialty

The Arora ATLAS® suite of mobile products integrates with IBM's Maximo® or Maximo Application Suite (MAS) Manage Enterprise Asset Management Software and Esri's ArcGIS software, including ArcGIS Indoors, to simplify asset management and revolutionize facility maintenance workflows.

+ **Comprehensive Asset Management:** Seamlessly track, monitor, and maintain assets and work orders across outdoor and indoor spaces.
+ **Enhanced Spatial Understanding:** Gain insights into asset locations and spatial relationships for improved decision-making.
+ **Intuitive Indoor Navigation:** Provide users with interactive wayfinding and turn-by-turn navigation within complex indoor environments.
+ **Point of Interest Guidance:** Help users locate specific points of interest with step-by-step directions and optimal path highlighting.
+ **Multi-Floor Navigation:** Seamlessly navigate between different floors or levels within buildings.

▲ ATLAS Work Order Detail

The integration of ATLAS and Indoor GIS enables organizations to effectively manage both outdoor and indoor assets while providing users with intuitive wayfinding and turn-by-turn navigation within complex indoor environments.

Features Include:

+ **Interactive Indoor Navigation**
+ **Point of Interest Guidance**
+ **Accessibility support**
+ **Location-based services**
+ **Multi-floor navigation**
